

## Orphan G-protein Coupled Receptor 19 (GPR19)

|                    |            |                     |                |
|--------------------|------------|---------------------|----------------|
| <b>Clone ID</b>    | GPR0190000 | <b>Species</b>      | Human          |
| <b>Gene Class</b>  | GPCR       | <b>NCBI Acc. #</b>  | NM_006143      |
| <b>Date</b>        | 06/16/2011 | <b>Alt. Names</b>   | GPR-NGA, GPR19 |
| <b>Bacteria</b>    | Top10      | <b>Origin</b>       | cDNA (thymus)  |
| <b>Vector</b>      | pcDNA3.1+  |                     |                |
| <b>Antibiotic</b>  | Ampicillin | <b>Tag</b>          | n/a            |
| <b>Promoter</b>    | T7/CMV     | <b>Tag Location</b> |                |
| <b>Insert Size</b> | 1248       | <b>Mutation</b>     | *see below     |
| <b>5' RE</b>       | EcoR1      | <b>Phenotype</b>    | wt             |
| <b>3' RE</b>       | Xho1       | <b>Sequenced</b>    | Full Length    |

### Description

\*nt805 (C to A) silent snp
