Identical to GenBank ACC# NM_001400: with the following exeption (T558C) (Silent mutation) Endothelial differentiation G-protein coupled receptor 1 (EDG1) (wild type) cloned into pcDNA3.1+ (Invitrogen) at BamHI (5’) and XhoI (3’). The open reading frame was amplified by the PCR from Human Genomic DNA. The insert was sequenced. Insert size=1149 bp.
